

برج اليرموك للصناعات ذ.م.م  
**BURJ AL YARMOUK INDUSTRIES L.L.C**

Burj Al Yarmouk is  
Specialized Engineering,  
Design & Fabrication Company.

## ABOUT US

Established in the year 2015, we specialize in manufacture and supply of Acoustic solutions for Power Generation applications like Drop over Enclosures up to 550KVA Gensets, Containerized Canopies for Gensets ranging above 550KVA up to 1500KVA, Custom built Generator Modules above 550KVA Generator sets.

Burj Al Yarmouk Industries L.L.C being aware of the benefits of ISO Certification has demonstrated the effectiveness of QMS successfully and hence got the accreditation for QMS – ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 certification.

**We have Certified Welders – as per ASME Section IX for SMAW / TIG / MIG upto 6G position.**

For over FIVE years, Burj Al Yarmouk Industries L.L.C is known for its reliability, dependability and to enhance value for its customers through its highly cost-effective solutions. As a multi-disciplinary organization with complementing business, we offer end-to-end power solutions in the industry.

Being innovative and creative in our field, we have further embarked into the development of Acoustic Modules for both offshore and onshore applications with high end specifications like Fire suppression systems, Explosion-proof light fittings, Gas detection systems and IP54 rated Enclosures etc...

## Our Mission:

Striving to Develop a better Design, Produce and deliver Value-Added Engineering Products & Services with Speed & Quality.

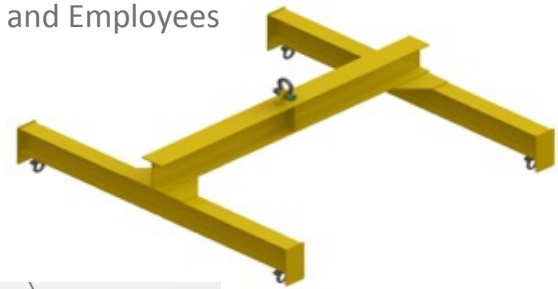

## Our Vision:

To be identified as the Industry Leader in Design, Manufacture & Supply of Power related products, Fuel Tanks, Structure Frames, Oil skid Structure Frames , Services and Total solutions.

## Our Values:

- ❁ To build Trust and Confidence with our Customers
- ❁ To hold Quality, Integrity, and Transparency in the highest regard
- ❁ To care for our Customers, Employees and Environment
- ❁ To be committed to Teamwork and Solution Development
- ❁ To be Respectful and act Responsibly towards our Customers and Employees

## Low Height Lifting Frames:

With in-house Acoustic and Structural designing capability, we have further developed Fuel tanks, Room Acoustic and mobile units, Substation Modules, Special purpose Lifting Spreader Frames, Lifting Frames , Multi -point lifts & Cascaded Spreader Beams, Speeder Bar beams up to 60 tonnes capacity.

## Product Range

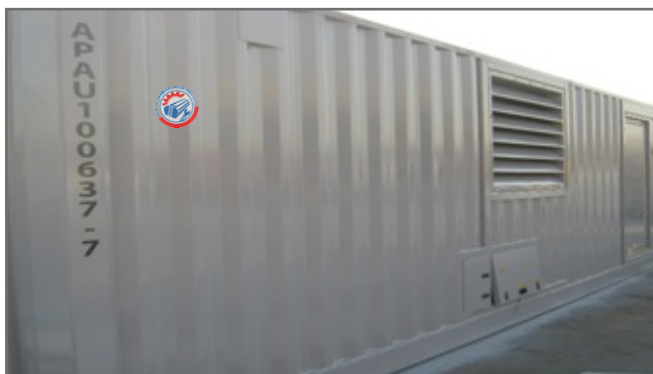

## Chiller modules, Residential and Critical grade Mufflers etc....

## ISO & Standard type Custom Built Acoustic Enclosure:

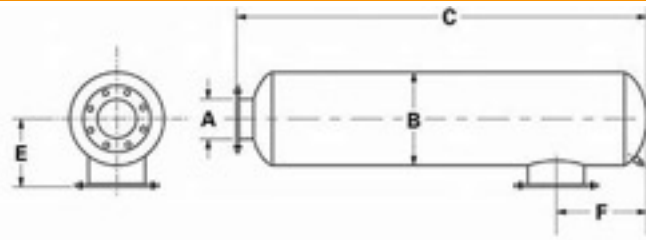

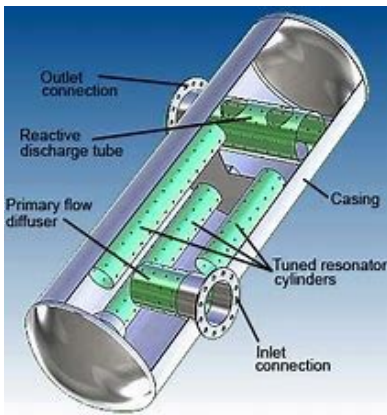

- ❁ Weatherproof Acoustic Enclosure
- ❁ Sound level up to 70 dBA
- ❁ Standard ISO Container Dimensions as per customise design.
- ❁ Integrated Fuel Tanks
- ❁ Drop over Enclosure.
- ❁ Sand trap louvers
- ❁ Built in Fuel tanks
- ❁ Stackable Fuel Tank Structure
- ❁ Mobile units Power Generators

## SS 316 L MUFFLER

We leverage on the expertise to offer optimal solutions to customer needs.

## DESIGN SERVICES:

- ❁ Design & detailing Industrial shed and support structure (Hot rolled steel)
- ❁ ASME SECTION VIII Div.1, Div 1.1 pressure vessel design and Analysis (FEA)
- ❁ Spreader Beam & its support Structure Design and Analysis
- ❁ Static equipment- Silo, Hoppers Design & Analysis
- ❁ Storage tank Design & Analysis
- ❁ Offshore Skid Structure and Steel Structure Design & Detailing
- ❁ Design and IP Rated / Weatherproof Acoustic sound Enclosures.
- ❁ Design Critical Grade Mufflers
- ❁ Design Residential Grade Mufflers
- ❁ Zone II Accessories
- ❁ Co2 Fire Suppression
- ❁ Marine grade painting 3 coat system
- ❁ Oil Skid structure frame for Power Module
- ❁ Base Fuel Tank
- ❁ Drip Tray

## Engine & Alternator Coupling on a Custom-built Skid Frame

- ❖ Design & Fabrication of Common Skid
- ❖ Coupling & Assembly and Engine of Alternator
- ❖ Radiator skid mounting with all necessary connections.
- ❖ Integrated Fuel Tank
- ❖ Laser Alignment with Test Report

### We Include:

- ❖ Manufacture and Supply of Diesel Generators [15kVA to 2000 kVA]
- ❖ Turnkey Projects
- ❖ Manufacture and Supply of Fuel tanks of different capacity
- ❖ Manufacture and Supply of Oil Field Skid Structure Frame
- ❖ Manufacturing and Supply of Residential & Industrial Type Mufflers
- ❖ A large pool of Technical Manpower
- ❖ In-House Expertise in Design – Engineering – Procurement – Execution – Maintenance
- ❖ Systems and Processes Ensuring Quality and Timelines across all functions.
- ❖ Product Support – Maintenance, Repairs, Overhauling & Spares (MROS)

## On site Sound Room Acoustics:

- ❖ Onsite sound proofing Acoustics
- ❖ Weather proof & sand trap louvers
- ❖ Noise level upto 75 dBA
- ❖ Air ducts & ventilation louvers for Engine room with Special Exhaust Fans
- ❖ Fire Fighting system
- ❖ Complete design and Installation

Burj Al Yarmouk Industries L.L.C has a committed management team, with strong conviction, technical expertise & extensive cross-functional experience, providing high-quality products & solutions to its clients.

With two well-equipped manufacturing units at SAJAA INDUSTRIAL AREA, SHARJAH UAE, Burj Al Yarmouk Industries L.L.C continues to retain its place of pride as a 'Truly Dependable Partner for Power Solutions' for most of their customers.
